---

## EXPERIENCE

**June 2010 -  
December 2019**

### **Flex Force Engineer III**

**AT&T** - Schaumburg, IL

Delivered project tasks for web applications, that support day-to-day operations at AT&T, while under pressure to meet tight deadlines. Reviewed requirements and made recommendations that support optimal design, maintenance and performance. Mentored and trained 2-4 new team members annually.

#### **Selected applications include:**

Unified Data Access Services (uDAS)

- Developed user interface to manage Access Card (a hardware component to DIRECTV receivers) deactivations which allowed business to refurbish cards pending deactivation, saving \$1.75M.
- Worked on microservices and enhancing and troubleshooting existing uDAS applications.
- Skills and technologies used include JavaScript, HTML5, CSS3, Angular, Jest, Java, Kubernetes, Jenkins, WebSphere, GIT, Postman, Visual Studio Code, Eclipse.

Enterprise Dispatch GUI Environment (EDGE)

- Worked to deliver a single dispatch platform to yield annual savings of \$13.2M, increase tech productivity, and improve customer experience.
- Provided development guidance to a team of 5+ developers.
- Skills and technologies used include AngularJS, HTML5, CSS3, Java, SQL, GIT, Eclipse.

**January 2010 -  
May 2010**

### **Freelance Web Developer**

**Cheese And Cheers**

- Developed website using WordPress system in PHP and CSS.
- Educated the client on how to use WordPress system to maintain the website.

**September 2008 -  
May 2010**

### **Computer Science Tutor**

**Dominican University** - River Forest, IL

- Helped students with computer programming problems and MS office questions.
- Tutored 2-5 students weekly.

**June 2009 -  
September 2009**

### **Student Intern- Technical**

**AT&T** - Hoffman Estates, IL

- Developed reporting and user-administration web-based tools for Business Objects XI R3.1, that automated previously manual tasks, saving 25% of time.

---
